Overview

The Boustead Projects Group ("BP Group")'s revenue is largely derived from project-oriented business and as such, quarterly results would not accurately reflect the full-year's performance. Full-year to full-year comparisons are more appropriate for analytical purposes.

For 3Q FY2017, the BP Group registered revenue of \$66.6 million, 22% lower year-on-year mainly due to lower revenue contribution from the design-and-build business, as 3Q FY2016 was a relatively higher revenue quarter due to two significant projects. However, total profit of \$8.5 million was 19% higher year-on-year due to lower selling and distribution, administrative, finance and income tax expenses, partially offset by lower gross profit.

For 9M FY2017, the BP Group registered revenue of \$189.8 million, 3% lower year-on-year mainly due to lower revenue contribution from the design-and-build business. However, total profit of \$22.0 million was 26% higher year-on-year due to lower administrative, finance and income tax expenses, combined with higher gross profit mainly due to the write back of provisions no longer required following the completion of certain projects.

Segment Revenue

Segment	Revenue			Revenue

BP Group Total	66.6	85.6	-22	189.8	196.0	-3

Note: Any differences in summation are due to rounding differences.

3Q FY2017 Segment Revenue

Design-and-build revenue for 3Q FY2017 was \$58.4 million, 24% lower year-on-year as there were two significant projects which contributed to 3Q FY2016 but had been completed prior to 3Q FY2017.

Leasing revenue for 3Q FY2017 marginally declined to \$8.2 million mainly due to the expiry of some leases. The vacant space is being actively marketed.

9M FY2017 Segment Revenue

Design-and-build revenue for 9M FY2017 was \$164.8 million, 4% lower year-on-year. The previous corresponding period registered higher revenue mainly due to greater work progress in several significant projects.

Leasing revenue for 9M FY2017 reached \$25.0 million, 2% higher year-on-year, mainly attributable to the commencement of two new leases, partially offset by the expiry of some leases.

Group Profitability

A breakdown of profit before income tax ("PBT") by business segment is provided as follows.

Segment	PBT			Favourable/ (Unfavourable)		
	3Q FY2017 \$'m	3Q FY2016 \$'m	Change %	9M FY2017 \$'m	9M FY2016 \$'m	Change %
Design-and-Build	6.4	5.8	+10	13.9	12.1	+15
Leasing	3.8	4.3	-12	12.8	11.2	+14
BP Group Total	10.2	10.1	+2	26.7	23.3	+15

Note: Any differences in summation are due to rounding differences.

3Q FY2017 Group Profitability

The BP Group's gross profit for 3Q FY2017 decreased 12% year-on-year to \$17.1 million, as a result of lower revenue from both the design-and-build and leasing businesses. Overall gross margin for 3Q FY2017 increased to 26% from 23% in 3Q FY2016.

Total overhead expenses for 3Q FY2017 were \$6.4 million (selling and distribution expenses of \$1.0 million and administrative expenses of \$5.4 million), decreasing 22% year-on-year. The higher administrative expenses in the previous corresponding period relate to non-recurring legal and professional fees. Selling and distribution expenses remained comparable across both periods.

Finance expenses for 3Q FY2017 dropped 51% year-on-year to \$0.5 million following significant repayment of borrowings in FY2016 to substantially deleverage the industrial leasehold portfolio.

Share of loss of an associated company and joint ventures mainly represents the elimination of construction and project management profits attributable to projects in which the BP Group has entered into with an associated company and joint ventures. For 3Q FY2017, this share of loss increased marginally to \$1.1 million.

PBT for 3Q FY2017 marginally increased 2% year-on-year to \$10.2 million, mainly supported by lower selling and distribution, administrative and finance expenses, partially offset by lower gross profit.

Despite higher PBT, income tax expense for 3Q FY2017 decreased 40% year-on-year to \$1.7 million, mainly due to lower taxes incurred as a result of lower intercompany profits earned during 3Q FY2017 as well as the reversal of prior year over-accrued tax provisions.

As a result, total profit for 3Q FY2017 grew 19% year-on-year to \$8.5 million.

9M FY2017 Group Profitability

The BP Group's gross profit for 9M FY2017 marginally increased 3% to \$46.1 million, mainly due to the write back of provisions no longer required following the completion of certain projects.

Other income for 9M FY2017 decreased 9% year-on-year to \$2.5 million as a result of lower interest income.

Total overhead expenses for 9M FY2017 were \$18.0 million (selling and distribution expenses of \$2.9 million and administrative expenses of \$15.0 million), decreasing 6% year-on-year. The lower administrative expenses were mainly due to lower legal and professional fees incurred during 9M FY2017, partially offset by additional operating expenses incurred in managing the enlarged industrial leasehold portfolio and higher payroll expenses. Selling and distribution expenses remained comparable across both periods.

Finance expenses for 9M FY2017 dropped 45% year-on-year to \$1.8 million following significant repayment of borrowings throughout FY2016 to substantially deleverage the industrial leasehold portfolio.

Share of loss of an associated company and joint ventures mainly represents the elimination of construction and project management profits attributable to projects in which the BP Group has entered into with an associated company and joint ventures. For 9M FY2017, this share of loss increased to \$2.2 million.

PBT for 9M FY2017 increased 15% year-on-year to \$26.7 million, mainly supported by higher gross profit, coupled with lower administrative and finance expenses.

Despite higher PBT, income tax expense for 9M FY2017 decreased 19% year-on-year to \$4.7 million, mainly due to lower taxes incurred as a result of lower intercompany profits earned during 9M FY2017 as well as the reversal of prior year over-accrued tax provisions.

Total profit for 9M FY2017 grew 26% year-on-year to \$22.0 million due to the aforementioned reasons.

Statement of Cash Flows

3Q FY2017 Cash Flows

During 3Q FY2017, cash and cash equivalents (after taking into account the effects of currency translation) decreased by \$34.0 million to \$99.5 million, mainly as a result of a \$24.9 million instalment payment made for land acquisition relating to the Mediapolis development under investing activities.

Net cash used in operating activities amounted to \$7.6 million, mainly driven by a negative change in working capital of \$17.8 million, due to increases in trade receivables and net contracts work-in-progress under current assets, partially offset by an increase in trade and other payables.

Net cash used in investing activities amounted to \$25.6 million, almost entirely due to the \$24.9 million instalment payment made for land acquisition relating to the Mediapolis development.

Net cash used in financing activities amounted to \$0.8 million, largely due to the scheduled repayment of borrowings.

9M FY2017 Cash Flows

During 9M FY2017, cash and cash equivalents (after taking into account the effects of currency translation) increased by \$8.7 million to \$99.5 million, uplifted by strong cash flow provided by operating activities.

Net cash provided by operating activities amounted to \$37.2 million, mainly driven by a positive change in working capital of \$9.2 million arising from a decrease in trade and other receivables and an increase in trade and other payables, partially offset by an increase in net contracts work-in-progress under current assets.

Net cash used in investing activities amounted to \$24.8 million, mainly due to the instalment payment made for land acquisition relating to the Mediapolis development and a loan extended to a related party, partially offset by the net repayment of loan by a joint venture.

Net cash used in financing activities amounted to \$3.4 million, largely due to the scheduled repayment of borrowings.

Balance Sheets

At the end of 9M FY2017, the BP Group's financial position remained healthy with cash and cash equivalents of \$99.5 million and total equity of \$215.1 million.

Under current assets, cash and cash equivalents increased to \$99.5 million as described earlier under the explanation for Statement of Cash Flows. Other receivables and prepayments significantly increased to \$39.1 million due to the \$24.9 million instalment payment for land acquisition relating to the Mediapolis development and a \$2.1 million loan extended to a related party, partially offset by a \$5.5 million repayment of loan by a joint venture. Net contracts work-in-progress under current assets increased by \$6.1 million due to revenue recognition for ongoing projects exceeding progress billings.

Under non-current assets, investments in joint ventures rose to \$15.4 million mainly as a result of the extension of shareholders' loans to a joint venture for the development of an industrial property for lease. Investment properties declined to \$141.3 million mainly as a result of depreciation.

Under current liabilities, trade and other payables increased to \$117.2 million mainly as a result of an increase in progress claims from subcontractors.

Total borrowings declined to \$90.0 million, due to the scheduled repayment of borrowings in relation to the industrial leasehold portfolio.

The BP Group's net asset value per share climbed to 67.2 cents at the end of 9M FY2017 from 60.6 cents at the end of FY2016, while the net cash position (cash and cash equivalents less total borrowings) stood at \$9.6 million at the end of 9M FY2017.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

None.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The industrial real estate sector in Singapore continues to remain highly challenging and competitive. Nevertheless, the BP Group has captured six design-and-build contracts in Singapore since the start of FY2017, contributing to an order book backlog of about \$170 million (unrecognised project revenue remaining at the end of 3Q FY2017 plus the total value of new orders secured since then).

In recent months, the BP Group has also achieved progress on several fronts. The BP Group's industrial leasehold portfolio (comprising both wholly-owned and jointly-owned properties) is set to grow further, with the latest awarding of development contracts for the Mediapolis development and Continental Building Phase 3, which are being undertaken by the Boustead Development Partnership. These new developments are set to contribute design-and-build income (during the construction phase) and share of recurring rental income (during the leasing phase) to the BP Group.

As announced in January 2017, the Ausgroup lease was surrendered to the BP Group with an expected PBT gain of approximately \$5.9 million. In addition, the BP Group has agreed to sell its total interest in TripleOne Somerset for an expected PBT gain of approximately \$8.9 million, which is expected to be completed in the next few months.

The BP Group will continue to prudently deploy its cash resources in pursuit of investment and growth opportunities across its various geographic markets.
