BOUSTEAD SUBSIDIARY AWARDED DESIGN-BUILD-AND-LEASE CONTRACT FROM ENERGY ALLOYS FOR INTEGRATED MANUFACTURING AND DISTRIBUTION FACILITY

- **3rd design-build-and-lease contract secured by division in FY2014**
- **14th industrial facility in industrial leasehold portfolio, raising expected portfolio size to over 163,000 square metres of gross floor area**

Singapore, 31 October 2013

Boustead Singapore Limited ("Boustead") is pleased to announce that its wholly-owned subsidiary, Boustead Projects Pte Ltd ("Boustead Projects") – a leading specialist in industrial real estate solutions – has been awarded a contract to design, build and lease an integrated manufacturing and distribution facility (the "Facility") to Energy Alloys Pte Ltd ("Energy Alloys SG") in Singapore.

Energy Alloys LLC ("Energy Alloys") is an established and trusted provider of oilfield metals, services and solutions to global oil & gas equipment manufacturers and service corporations. Headquartered in Houston in the United States, Energy Alloys supplies oilfield metals, machining and supply chain management services to oilfield original equipment manufacturers. Named among Houston's top 100 private corporations, Energy Alloys employs more than 550 employees globally and has operations in the United States, Canada, Mexico, United Arab Emirates, United Kingdom, Singapore and South Korea.

Artist's impression of 10,520 sqm integrated facility to be completed in calendar year 3Q 2014*

* Final design may vary from artist's impression

To be completed in calendar year 3Q 2014, the Facility will have a gross floor area of approximately 10,520 square metres and comprises a single-level manufacturing facility with a mezzanine office. Hosting a full range of machining capabilities for specialised steel products, the Facility will process products for distribution to the oil & gas industries in the Asia Pacific region. Energy Alloys SG is relocating from two existing facilities at Tuas Bay Drive and Enterprise Road to the new facility as part of its regional expansion plans.

Mr Thomas Chu, Managing Director of Boustead Projects said, "We warmly welcome Energy Alloys to our client list under design-build-and-lease arrangements. The integrated manufacturing and distribution facility for Energy Alloys will be the 14th industrial facility in our industrial leasehold portfolio and grows the gross floor area of our portfolio to over 163,000 square metres, with over 60,000 square metres added in the past three months alone."

Mr Chu added, "We remain focused on generating a greater flow of recurring income from our portfolio. Over the past three months, we have been awarded several design-build-and-lease contracts, including a 24,800 square metre integrated maintenance, repair and overhaul and remanufacturing centre at Tukang Innovation Park, a 5,000 square metre R&D centre expansion to the existing Continental Building at Kallang iPark, and a joint venture development with Tat Hong Investments Pte Ltd at Ubi Avenue 4. We are also actively exploring several options to unlock the value of our portfolio."

As the latest contract is not on a design-and-build arrangement, it will not be added to the Boustead Group's order book backlog (as at the end of June plus new orders since then), which currently stands at over S\$523 million.

This contract is not expected to have a material impact on the profitability, earnings per share and net asset value per share of the Boustead Group in the current financial year ending 31 March 2014.

None of the Directors or controlling shareholders of Boustead has any interest, direct or indirect, in the above contract.
